About the Event

On 6th September 2024, an Offline **Internal Smart India Hackathon 2024** was organized by the **Department of Electronics & Telecommunication Engineering**, at **Dr Vitthalrao Vikhe Patil College of Engineering, Ahmednagar**. **Total 15 teams** have been participated in Internal SIH 2024 from entire College.

The objective of the event was to enlighten the students with the challenges of Software and Hardware Edition. The objective of this Internal Hackathon was to scrutinize the solutions provided by team members for different problem statements listed by multiple organizations and Ministries of India. This helped students to understand the problem with different perspectives and to come up with a proper solution. The goal of this Internal Hackathon was to prepare the student teams for national level Smart India Hackathon 2024.

Smart India Hackathon 2024 is a nationwide initiative to provide students a platform to solve some Innovative and relevant problems that we face in our daily lives, and thus inculcate a culture of product innovation and a mindset of problem solving. In the last 5 to 6 years, SIH has evolved into the world's Largest Open Innovation Model to solve some of the pressing problems we face in our daily lives, and thus inculcate a culture of product innovation and problem solving mindset. Moreover, the Hon'ble Prime Minister of India has applauded the SIH initiative on multiple occasions which has helped to kick-start the hackathon culture in India. The previous editions of SIH have proven to be extremely beneficial for the students in establishing startups and employment opportunities in various organizations.

2. About the Problem Statement

The Internal #SIH 2024 was a great success. The students were enthusiastic and creative, and they came up with some innovative solutions to the problem statements. The judges were impressed with the quality of the solutions, and they were confident that the students would be successful in the national-level hackathon.

The Internal SIH 2024 was a valuable learning experience for the students. It helped them to develop their problem-solving skills, to work collaboratively, and to think creatively. The event also helped to foster a culture of innovation and entrepreneurship among the students.
