Subject: Invitation for recruitment drive of BE 2024 batch Engineering Candidates at one of the Best Engineering College , Dr. Vithalrao Vikhe Patil College of Engineering , Ahmednagar (Institute is NAAC accredited with A+Grade in Feb 2023 & NBA accredited in May

Dear Sir / Mam ,

Greetings from [Training & Placement Cell of Dr. Vithalrao Vikhe Patil College of Engineering , Ahmednagar .](#)

We take this opportunity to introduce ourselves as one of the leading educational institutes in Maharashtra imparting quality education since [1983](#) .Total39 years of excellence in Engineering education .

About Institute :

The Institute was established in the year 1983 in the proximity of Ahmednagar Industrial area offering undergraduate & postgraduate courses. Over the years it has grown into a premier institution with an excellent teaching-learning environment to achieve excellence in imparting quality technical education thereby generating technocrats compatible with the needs of current industries & society.

Taking into consideration the excellent infrastructure, teaching-learning process, research & development by students & faculty members, **UG courses are accredited by the National Board of Accreditation**, New Delhi . **E & TC Dept. and Civil Dept. are NBA Accredited for 3 years from May 2023 onwards** and **College is accredited by National Assessment & Accreditation Council (NAAC), Bangalore with A+ grade .**

The institution is affiliated to Savitribai Phule Pune University, recognized by the Government of Maharashtra & approved by AICTE (All India Council for Technical Education), New Delhi. The institution is located on beautiful picturesque & pollution-free land of 25 acres at a distance of 12 km from Ahmednagar City on Nagar-Shirdi state highway.

Mode: Work from Home

Joining: Available immediately

Salary: Performance-based incentive in the internship period. If selected after an internship, the salary range will be 3 LPA to 4 LPA.

Job Description- Software Developer

As a frontend or backend developer intern, your role involves working on the client side or server-side of web applications, managing databases, and ensuring that the logic and functionality of the application work smoothly. Here are some common roles and responsibilities for a frontend or backend developer internship:

1. **Server-Side Development:** Write clean, efficient and scalable code using programming languages such as Python, Java (Core & Advance), Ruby, Node Js, Dot Net, Asp. Net, or PHP to handle server-side logic.
2. **Client-side or front-end Development:** Write clean, efficient, and scalable code using programming languages such as HTML, CSS, JavaScript, React Js, Vue Js, Angular, Flutter, Next Js, React Native, to handle client-side logic.
3. **Database Management:** Design, create, and maintain databases, including data modeling, schema design, and querying using technologies like SQL or NoSQL databases (e.g., MySQL, PostgreSQL, MongoDB).
4. **API Development:** Design and develop APIs (Application Programming Interfaces) that allow communication between the frontend and backend components of the application.
5. **Backend Frameworks:** Use backend frameworks like Flask, Django, Ruby on Rails, Express.js, or Laravel to streamline development and enhance security.
6. **Authentication and Authorization:** Implement user authentication and authorization mechanisms to ensure secure access to the applications features and data.
7. **Data Validation and Sanitization:** Validate and sanitize user input to prevent security vulnerabilities such as SQL injection and cross-site scripting (XSS).
8. **Server Deployment:** Deploy the backend code to servers or cloud platforms like AWS, Heroku, or Azure, ensuring the application is accessible to users.
9. **Performance Optimization:** Optimize backend code for speed and efficiency, considering factors like caching, database indexing, and load balancing.
10. **RESTful Services:** Design and develop RESTful services that follow best practices for creating well-structured and maintainable APIs.
11. **Data Integration:** Integrate third-party APIs and services into the backend to extend the applications functionality.
12. **Version Control:** Use Git for version control to manage code changes and collaborate with other developers.
13. **Security:** Implement security best practices, such as encryption, secure endpoints, and proper handling of sensitive data.
14. **Error Handling:** Develop robust error handling mechanisms to ensure graceful handling of unexpected situations.
15. **Testing and Debugging:** Write unit tests and perform debugging to ensure the backend code is reliable and free of bugs.
16. **Collaboration:** Work closely with frontend developers, designers, and other team members to integrate frontend and backend components effectively.

17. Documentation: Maintain clear and detailed documentation for the backend codebase, making it easier for other developers to understand and contribute.
18. Continuous Learning: Stay updated with the latest backend development trends, tools, and technologies to enhance your skills.
19. Scalability: Consider the scalability of the application by designing architecture that can handle increased user traffic and data.
20. Code Reviews: Participate in code reviews to provide and receive feedback on code quality and best practices.
21. Problem Solving: Analyze and solve technical challenges that arise during development, and contribute innovative solutions to improve the application.

As an intern, you'll have the opportunity to learn and develop your front end & backend development skills under the guidance of experienced developers. Your internship is a valuable stepping stone in building a strong foundation in front end and backend development.

Internship Duration: 6 Months

Mode: Work from Home

Joining: Available immediately

Salary: Unpaid internship. If selected after an internship, the salary range will be 2 LPA to 4 LPA.

Market Research Analyst

Job description

- We are looking to hire a Marketing Research Analyst to help us keep growing, and who will research and identify ways to build our brand and acquire new clients.
- The core responsibilities include researching consumer behavior and exploring market trends and opportunities.
- To be successful in this role, you should be comfortable with processing and analyzing marketing data and completing market research.
- The candidate will report directly with the head of senior director of product and partner marketing.

Responsibilities

- Prepare reports of findings, illustrating data graphically and translating complex findings into written text and presenting results
- Devise and assess procedures and methods for data collection, including opinion polls, surveys and questionnaires
- Gather information on competitors, and conduct analysis on their sales, prices and methods of distribution and marketing to thoroughly learn about the competition
- Conduct research regarding marketing strategies and consumer opinions while collaborating with statisticians, marketing professionals and pollsters
- Track and forecast trends in sales and marketing, and analyze in detail the data collected to provide management with thorough reports and results.
- Collect and analyze data regarding customer preferences, demographics, buying habits and needs to better identify market potential and factors influencing product demand
- Collect and analyze data through modern and traditional methods on consumers, competitors and the marketplace
- Devise and design qualitative and quantitative custom market research projects
- Perform qualitative and quantitative analyses to identify opportunities for product expansion
- Apply statistical techniques to interpret data and produce substantiated recommendations.
- Make recommendations for feasible methods for market penetration
- Proactively share and present market research reports and data analysis throughout the organization
- Research competitors and compile data for benchmarking.
- Conduct secondary research to provide analysis and actionable intelligence to determine growth opportunities, market positioning, and strategic business direction.
- Gather and evaluate relevant market, prospect, and competitor information to determine threats, benchmark against competition, and regularly advise of activities - acquisitions, marketing efforts, press releases, etc.
- Conduct studies to determine sales trends, market share, with the intention to identify opportunities to grow sales, strengthen market share, and increase profitability.

- Develop information research and analysis methodology by partnering with business to validate the secondary research findings and scrutinizing them with company s business/ market/ product leaders.
- Experience on supporting the End to End Bid Management process for creating quality proposal documents prepared in response to formal RFP/ RFQ/ RFIs or informal business need requests.
- Manage and own centralized repository comprising of existing collaterals.

Skill Requirements:

- Expert in PowerPoint, Excel Word.
- Ability to present research and analysis information in infographic model.
- Good to have skills: Power BI, Salesforce Reporting, Any reporting tools.
- Ability to work independently in a fast paced, evolving environment.
- Ability to think creatively, prioritize and take initiative.
- Ability and willingness to learn about the recruiting and IT services industries.
- Excellent written communication skills.
- Computer literate, proficient in Microsoft office and internet navigation.
- Extracting information from different sources, including company website, professional social networking sites like LinkedIn, Hoovers and Zoominfo etc.

Internship Duration: 3 Months

Mode: Work from Home

Joining: Available immediately

Salary: Performance-based incentive in the internship period. If selected after an internship, the salary range will be 3 LPA to 4 LPA.

Karnawat Bhavika Prashant
Ahmednagar, Maharashtra

Date: 20/12/2023

Dear Bhavika,

Congratulations on your offer from Numetry Technologies, Pune!!

We refer to your recent interview for the above position and are pleased to offer you the position of **Market Research Intern** in the **Management** department of our company, effective January 2024, under the following terms and conditions:

1. **Stipend:** Your Stipend will be Unpaid.
2. **Working hours and Day:** 9.30 Am to 6.30 Pm & Monday to Saturday.
3. **Term:** The internship period is for **3 months** for PG / **6 months** for UG, starting from Jan to June 2024.
4. **Process document:** A process document manual will be provided to you on joining, which will help you understand the working of your department better.
5. **Leave:** Interns will be given no casual or sick leaves, only national holidays and public holiday leaves will be given. No leave will be granted immediately before/after Public Holidays.
6. **Confidentiality:** You shall not at any time during or after your employment term with the Company reveal any of the affairs or secrets of the Company to any other person(s) nor use or attempt to use any information which you may acquire in the course of your employment in any manner which may injure or cause loss to the Company.

7. Resignation/termination

The Company shall be at liberty at any time by notice in writing summarily terminate the service of the employee if:-

- a) She/he is guilty of misconduct;
- b) She/he is negligent in the discharge of her/his duties; or
- c) Being absent or being unable to perform her/his duties and alleging ill-health as the cause thereof.

If you are agreeable to the above terms and conditions of the appointment, kindly confirm your acceptance by signing and returning the duplicate copy of this letter for our file and records.

Yours sincerely,

Human Resource Manager

I agree to the appointment and accept the above terms and conditions of service.
