#### Report of Event (Seminar/Workshop/Conference)

**Date:-** 30/08/2017 to 01/09/2017

**Time:-** 10:00am to 5:00pm

**Class :-** S.E, T.E & B.E Students

**Venue:-** Seminar Hall

**Nature of Event(SM/WS/Con) :-** Workshop

**Name of topic:-** Workshop on "Industrial Approach in Electronics"

**Name and Address of Speaker Guest:-** Prof. Sanjay Chaudhari, Electronic Study Centre, Nashik

**Name of Staff and Delegates:-**

1)Dr.A.K.Patil 2)Prof.S.S.Magar 3)Prof.V.G.Kale 4)Prof.N.M.Deshpande

**Staff Coordinator:** Prof.C.K.Kalawade & Prof.G.D.Londhe

**Total Number of Students Present:-** 90

#### **Description of the Event:-**

Industrial electronics is a branch of electronic engineering that deals with power electronics, for example, thyristors, SCRs, AC and DC drives, meters, sensors, analyzers, stack cells programmed test gear, multimeters, information recorders, transfers, resistors, semiconductors, transistors, waveguides, scopes. Also know the steps of project construction.

#### **Objective of the Event:-**

- 1) To introduce all Electronics components.
- 2) To introduce industrial Electronics components
- 3) To study the steps of project construction

#### **Outcomes of the Event:-**

- 1) Students will able to explain industrial Electronics components.
- 2) Students will able to apply steps of project construction.

1. **Objective-**
1. Students will be able to interpret and communicate
  2. Quantitative information and mathematical and statistical concepts using language.
  3. Students will be able to make sense of problems, develop strategies to find solutions, and persevere in solving the.
  4. Students will be able to reason, model, and draw conclusions or make decisions with mathematical, statistical, and quantitative information.
  5. Students will be able to critique and evaluate quantitative arguments that utilize mathematical, statistical, and quantitative information.
  6. Students will be able to use appropriate technology in a given context.
2. **Outcomes:-** Students will be able to:
1. Solve real--life problems requiring interpretation and comparison of complex numeric summaries which extend beyond simple measures of center.
  2. Solve real--life problems requiring interpretation and comparison of various representations of ratios (i.e., fractions, decimals, rates, and percentages).
  3. Distinguish between proportional and no proportional situations and, when appropriate, apply proportional reasoning.
  4. Analyze and critique mathematical models and be able to describe their limitations.
  5. Use models, including models created with spreadsheets or other tools, to estimate solutions to contextual questions, identify patterns, and identify how changing parameters affect the results.
  6. Choose and create models for bivariate data sets, and use the models to answer questions and draw conclusions or make decisions.
  7. Evaluate claims based on empirical, theoretical, and subjective probabilities.
  8. Use statistical information from studies, surveys, and polls (including when reported in condensed form or as summary statistics) to make informed decisions.

In the post-corona virus world, businesses will undergo a transition and the biggest gainer could be the IT industry. Many IT companies have digitized all their processes and invested in cutting edge infrastructure and collaboration tools to support their location-independent agile delivery models and secure borderless workspaces. The expanding information technology (IT) industry, along with the rising trend of digitalization, is one of the key factors that will continue to drive growth of Indian IT companies. Hence Department of Information Technology has organized Four Days Online Webinar Series "**Discover New Opportunities In Information Technology**" on 15-18th June 2020

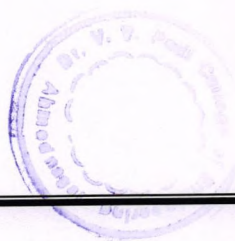

Four Days Online Webinar Series organized by the Department went with a grand success that has got huge response. More than 55 participants have attended the session on zoom app daily. All sessions were delivered by esteemed technical experts from abroad. The eminent resource speakers delivered their talk on various topics are as under

The first speaker was Mr. Omkar Thigale, Associate Manager, Ather Energy, Bangalore and the topic was "7 Habits To Inculcate For A Life Time" delivered on 15th June 2020. Second speaker was Mr. Rahul Kathade, Lead Database Performance Engineer, Salesforce.com, Singapore and the topic was "Career Opportunities as Database Administrator" delivered on 16th June 2020. The next technical expert was Mr. Girdhari Bavane, Project Manager Technical, ATOS Global IT Solutions Pvt. Ltd. Netherlands and his topic was "Data Modeling Techniques and Best Practices" conducted session on 17th June 2020. And the last day technical expert was Mr. Pankaj Shelar, Application Development Specialist in Accenture, Canada nicely delivered the talk on the topic "Trends in Software Industry". All sessions were very well planned and nicely deliberated talk. The guidance given really motivated students and was very much useful for them.

The department was highly obliged to Hon'ble Deputy Director Shri Kalhapure Saheb and Principal Dr. Naik Sir for their constant support and encouragement for the webinar series 2. Department congratulated and appreciated the untiring efforts taken by coordinators of the webinars - Prof. Ms. Arti B. Bavane and Prof. Avinash A. Pund. The success of webinar series 2 is the result of their earnest hard work. Specially appreciated Prof. Ms. Shruti S Pophale for her dedicated work on setting up zoom meeting and making it live on youtube channel.

We must acknowledge all the participants who actively participated and showed their zeal throughout the webinar without which this would have not been possible. The same response is expected for future webinar series.

The outcome of webinar series highlighted through sharing of real time practical experience in the field of Information Technology by the experts working at foreign locations.

Vendors : AWS (Amazon web services), Microsoft Azure, Google Cloud Platform, Oracle cloud etc.  
Provide on-demand servers, virtual machines, raw block storage, firewalls, load balancers etc. Benefits are single vendor management, pay as per use, No need to build own data centers.  
Certifications : AWS provides certification paths for various layers like Developer, Operations, Architect, Networking, Security and many more. Their site will have all the details of the paths. Similar certification paths are now offered by Oracle, Google and Microsoft. AWS, GCP and Microsoft Azure are most popular IaaS providers, so their certifications paths have some weightage and recognition.
