Description of the Event:-

Objective: - Five days workshop on "PLC & SCADA Application" was organised by the department for final year electrical engineering students from 3rd – 6th October 2017. This workshop will be conducted by Mr. Ramesh Wakchare along with two experts of Prolific Systems & Technologies Pvt. Ltd., Pune. Topics covered in this workshop will be PLC fundamentals, PLC ladder diagram, fundamentals of SCADA, interfacing of PLC & SCADA. These concepts will be certainly useful for final year students.

We are living in a new century driven by knowledge and technology. We have to exploit fully the tremendous opportunities available around us. It is clearly established fact that there is very little technology that grows in isolation. We need innovators, researchers and users all together. Most contemporary developments require inputs from all these disciplines and R & D is essentially a team effort.

I would like to mention that we are here for a noble task of raising capable human resources of nation building which our country has plenty. When I say raising capable human resources I indicate such training to youth who after coming out from this college can add some contribution and value to the society.

You are the medium through which our training here, translates into such commodities which not only causes improvement of quality of life of common masses, rural poor and other population but also brings momentum into country's economy and prosperity.

The main objective of this workshop is to understand & study thoroughly, functioning of PLC& SCADA. PLC& SCADA are very much required by the industry in this competitive market because industry is advancing very fast by leaps and bounds from manual manufacturing system to the automation industrial production has gone up with quality of the product and we are in a position to compete in the global market.

As PLC& SCADA is a part of the curriculum of the degree course of university of pune, it is very much essential for our students to learn and understand it seriously.

Prof.S.A.Markad, Head of Department, Electrical Engineering, delivered the welcome address and enlightened with aims and objectives of Webinar. He extended warm welcome to all participants and expressed his deep gratitude towards

Er. Ramesh Wakchaure
