International Conference on Intelligent Computing and Applications

ICICA 2016

Editors: ([view affiliations](#)) Subhansu Sekhar Dash,
Swagatam Das, Bijaya Ketan Panigrahi

Discusses the latest advancements and explore the future directions in the emerging areas of Engineering and Technology

Presents original work, ideas, information, techniques and applications in the field of Circuit, Power and Computing Technology

Contains papers written by industry professionals and researchers

Includes supplementary material: sn.pub/extras

Part of the book series: [Advances in Intelligent Systems and Computing](#) (AISC, volume 632)

About this book

The book is a collection of best papers presented in International Conference on Intelligent Computing

computing, pattern recognition, multi-agent systems, and wireless communication. He has published one research monograph, one edited volume, and more than 200 research articles in peer reviewed journals and international conferences.

Dr. Bijaya Ketan Panigrahi is Professor of Electrical and Electronics Engineering Department in Indian Institute of Technology, Delhi, India. He received his Ph.D. degree from Sambalpur University. He is Chief Editor in International Journal of Power and Energy Conversion. His interests focus on power quality, FACTS devices, power system protection, and AI application to power system.
