### Description of the Visit:

An Industrial Visit to Sahib Cold Storage, MIDC Ahmednagar was organized for B.E. Mechanical engineering students. A cold storage warehouse/room helps keep fruits, vegetables, etc., at the right temperature to preserve the product until it is used. A cool store or cold storage is a large refrigerated room or building designed for storage of goods in an environment below the outdoor temperature. Products needing refrigeration include fruit, vegetables, seafood and meat.

The students of B.E. Mechanical and staff members have enjoyed the technical session at the Cold Storage. The company person appreciated our students after the technical session.

Students were well mannered and disciplined throughout the visit and no injury or anything unpleasant thing happened during industrial visit.
