

4.4.2: There are established systems and procedures for maintaining and utilizing physical, academic and support facilities - laboratory, library, sports complex, computers, classrooms etc.

Describe policy details of systems and procedures for maintaining and utilizing physical, academic and support facilities on the website within a maximum of 1000 words

Established Procedures for Maintenance

Institute has established systems and procedures for maintenance and utilization of the laboratory, library, sports complex, computers, classrooms etc.. The scan copy of document showing the procedure for repair/brake down maintenance is elaborated for the equipment maintenance The in workshop department on sample basis. The same procedure is adopted for maintaining the equipment and appliance in laboratory, library, sports complex, computers, and classrooms.

Flow chart of Procedure

The Lab Assistant raises the need for equipment maintenance, which the Lab In-charge verifies and forwards to the Head of Department. The Department Head will forward it to the Principal. The requirement is forwarded by the principal to the accounting department for budget information, which is then forwarded to the Foundation office. The Foundation Office issues a work order for the equipment's repair and maintenance. After the repair work is completed, the equipment is tested, and the lab in charge submits the test report. The bill is then paid to the appropriate agency.
