

## Report of Three Days Webinar Series May 24 – 26, 2020

It gives me an immense pleasure to share that Three Days Online Webinar Series organized for the first time by Department of Information Technology was a grand success. It's all sessions were stream through Youtube live channel for the first time that has got huge response. More than 50 participants have attended the session on zoom app daily. All sessions were delivered by esteemed alumni of the department.

On 24 May (Sunday), Mr. Anant Gadekar (2011 batch) delivered a talk on Docker Technology, on 25 May (Monday), Mr. Kiran Jadhav (2014 batch) explained on topic Advanced Java Technology and on 26 May (Tuesday), Mr. Rahul Jagtap (2014 batch) conducted a session on Software Testing. All speakers practically demonstrated their topics. All sessions were very nice, informative and really enjoyed by all SE, TE and BE IT students and staff members. Outside faculties have also participated in these sessions. On behalf of IT department, I express by gratitude to these alumni - Mr. Anant, Mr. Kiran and Mr. Rahul for their thankless contributions towards the department.

We are very much obliged to Hon'ble Deputy Director Shri Kalhapure Saheb and Principal Dr. Naik Sir for their constant support and encouragement for the webinar series.

We must congratulate and appreciate the untiring efforts taken by coordinators of the webinars - Prof. Ms. Shruti Pophale and Prof. Mrs. Jyoti Gaidhani. The success of webinar is the result of their earnest hardwork.

We must acknowledge all the participants who actively participated and showed their zeal throughout the webinar without which this would have not been possible. I am expecting same response for future webinar series.

The outcome of webinar series results into the launch of youtube channel formation along with zoom live lecture series. The significant contribution of alumni of the department through this webinar series is highlighted.
