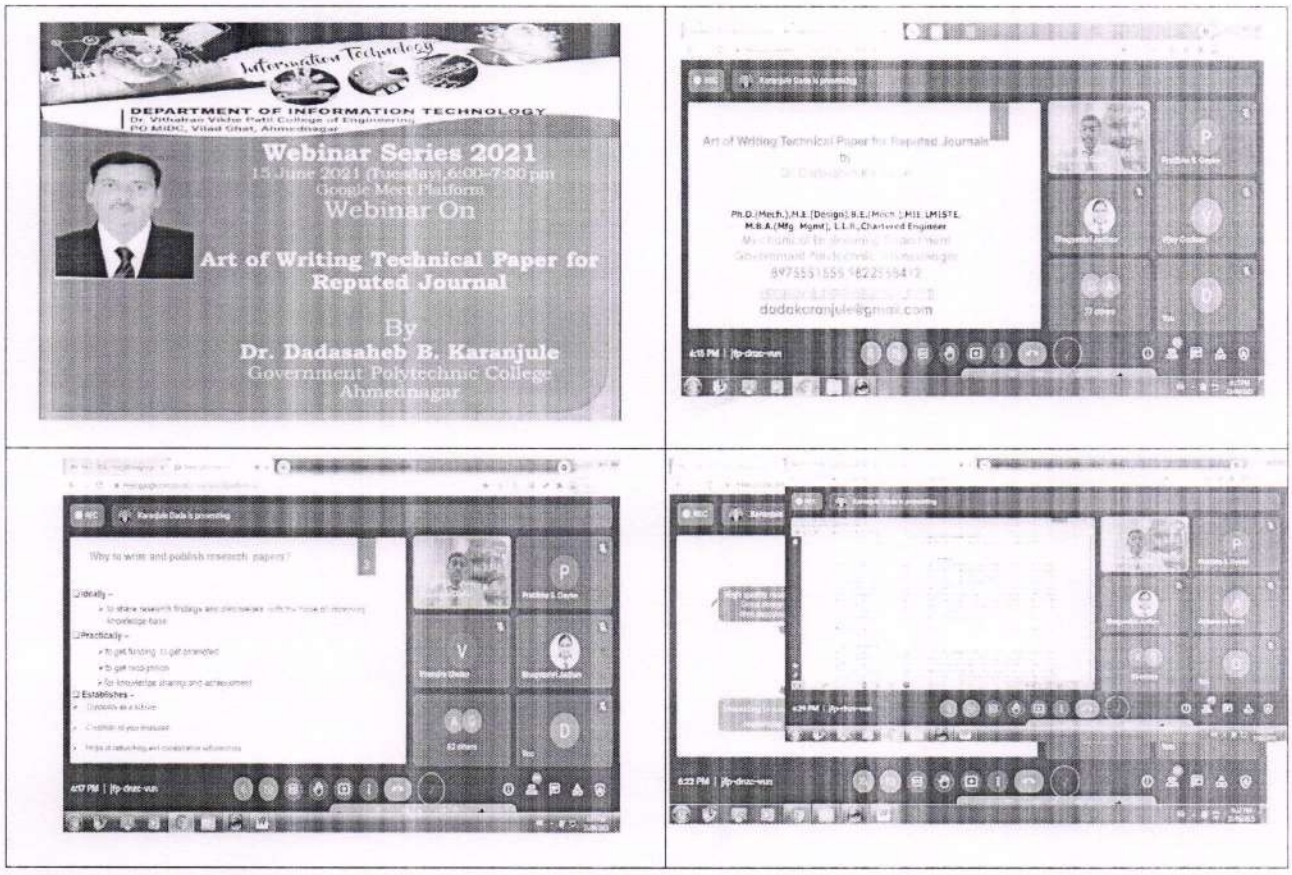
Day 6- 15th June 2021 (Tuesday),6:00–7:00 pm

Webinar on **Art of Writing Technical Paper for Reputed Journal** : by Prof. Dr D.B. Karanjule, Government Polytechnic College, Ahmednagar.



During the webinar on **Art of Wring Technical Papers for Reputed Journals**, Dr. D.B. Karajnule explored different prospectus on paper writing. He started his session with a question that why to write and publish research paper? High quality research with good design and well evaluated work must be original and novel and paper must be interesting to journal's readership. The paper must be clear and concise and structuring the manuscript with proper title. For any paper, four important sections are abstract, introduction, general method and conclusion. To write an abstract is important task that answers to what, why, how question. While writing introduction the issues to be considered are worldwide or regional relevance, broad or specialized audience, what is known about the topic i.e. up-to-date studies and what is not known indicating clear description of problem. Use keywords like "however". Select the journal with similar research area, indexing (Scopus, Science Citation Index (SCI), Web of Science, Impact Factor of journal etc. More than **92** participants attended the session.

Two student participants expressed their views on webinar series before conclusion. Earlier, Prof. Mrs. P.S. Gayke welcomed all and introduced the speaker. Prof. Ms. S. S. Pophale, coordinator summarized the points discussed and hosted the online meeting. Prof. Mrs. J. P. Gaidhani proposed the vote of thanks.

Feedback by Student: Two students participants were expressed their opinion and feedback on six days webinar series that are given below:

1. **Manasi Palve, BE IT**

Thank you sir , thank you so much for giving me this opportunity to share my experience of this webinar on topic ACCELERATING CAREER OPPORTUNITIES and would also like to thank all experts for sharing and enlightening their valuable talks on career opportunities with all of us.

As a BE student, personally I am so fascinated with this webinar as when we graduate and move in real time scenarios, we are basically in state of confusion while selecting a career to be move ahead on.

So through this webinar, experts not only shared the opportunities and future scope of IT in various different sectors like Stock market, Pharma Industry, Medical sector and even much more than this but along with this they also thrown light on how to being practical in real world? How to develop and make ourselves compatible with current needs and challenges of modern days? They also focused on skill enhancement which really plays a crucial role in our career development, as like today Dr. Karanjule sir gave us a valuable knowledge regarding the art of writing technical papers to publish in reputed journal which is really helpful for all students from their future aspects.

So on behalf of all students I would once again like to thank all experts, our HOD sir Dr. Vidhate Sir, and all faculty teachers for organizing this webinar, as it really gave us a clear mind set to accelerate our career opportunity in IT sector.

Thank you

Manasi Palve, BEIT

2. **Muskan Shaikh, SE IT**

Good evening to all present in this webinar. Myself Muskan Shaikh from SE IT, we all had a great Webinar Series from 10th June till today 15th of June 2021.

On the first day Mr Sumeet Bhagat sir gave a great session and he guided about few courses that would be very Helpful for BE Students interm of further placement. It was a great session. Then Secondly, Mr Suraj Thorat sir gave a Inspirational as well as spiritual guidance with few interesting and Inspiring Stories, he gave us a great lesson on How the character of a person should be. And literally it was very helpful for everyone. Next, Mr Nikhil Kulkarni taught us in short how to be practical in life and sir also told about some future job opportunities and it will be very helpful for us to take decision regarding of selection of job selection. Mr Swapnil Karwande sir told about Stock marketing how IT Engineer can go with Stock Marketing and How it is useful for IT Engineers. On fifth day, Dr Wahid Ambekar sir told the opportunity in pharmaceutical industry and How IT Engineer can go with the pharmaceutical field, it was a great session. Last
