Subject: Two Days State Level Workshop on Data Science using Python Programming.

Respected Sir,

It is proposed to organize two days workshop on Data Science using Python Programming for staff and students of IT department on Feb. 13-14, 2020.

The main objective of this workshop is to provide hands on in various / open source software tools like python for research in computer science available as free software. In this workshop, we take a look of most commonly used research tools which not only provide answer to research problems but also help to learn more about research topics.

This workshop will provide an ideal stepping stone for further developing programming skills in python.

Workshop Objectives:

1. Identify and assess the needs of an organization for a data science task.
2. Collect and manage data to devise solutions to data science tasks.
3. Interpret data science analysis outcomes.
4. Transform findings from data sources into actionable business strategies.

Workshop Outcome:

1. To solve hidden solutions to business related challenges and meet organizational needs.
2. To obtain, process, transform data, analyze interpret data using machine learning
3. Participants to be able to use python programming for solving data science problems.

It is requested to please sanction approximate budget of Rs. 39,000/- for the same. Rs. 5000/- has been sanctioned by Savitribai Phule Pune University, Pune for the same.

Thanking you
